

APPLICATION FOR A DATA RECOVERY LICENSE

A. 1. Personnel Information (attach resumes of ALL participants in the data recovery for which application is made in addition to the information requested below)

Name and address of applicant

Date of birth_____

Social Security number____ - ____ - _____

Driver's License number_____ State_____

Diver's Certification_____

Occupation_____

2. Information on all persons who are to participate in the data recovery for which this application is made (use additional sheet if necessary):

Name and address

Date of birth_____

Social Security number____ - ____ - _____

Driver's License number_____ State_____

Diver's Certification_____

Occupation_____

Name and address

Date of birth_____

Social Security number____-____-_____

Driver's License number_____State_____

Diver's Certification_____

Occupation_____

Name and address

Date of birth_____

Social Security number____-____-_____

Driver's License number_____State_____

Diver's Certification_____

Occupation_____

3. Field Archæologist to be employed by the applicant and who will be immediately supervising the data recovery:

Name and address

Date of birth_____

Social Security number____ - ____ - _____

Driver's License number_____ State_____

Diver's Certification_____

Occupation_____

Degree(s) held _____

4. For each individual listed above provide a brief resume of his/her relevant experience, training, and certifications in maritime archæology or related fields (use additional sheet if necessary).

B. 1. Provide a complete description, by latitude and longitude and in relation to the shoreline and other landmarks, of the area requested for exploration under the intensive survey license or, if applicable, the precise location of a shipwreck or other submerged archæological historic property or submerged paleontological property to be explored. Attach to this application a sketch map, location map or other pictorial description of the site or area in sufficient detail to allow it to be accurately located on a standard map or chart (use separate sheet if necessary).

2. Provide a proposed research plan that is designed to recover relevant scientific, historical, architectural, paleontological and archæological data. The proposal must include:

(a) Results of archival, historical or archæological research that pertains to the proposed project and which supports the proposed research plan;

(b) A description of the proposed methodology, identification, documentation, or other treatment of submerged archæological historic property or submerged paleontological property that identifies the project's goals, methods and techniques, expected results, and the relationship of the expected results to other proposed activities or treatments;

(c) Detail of the proposed techniques and methods of survey, excavation, recovery, conservation, inventory, recordation, storage and stabilization of recovered materials, and dissemination of data and;

(d) A justification of the specific techniques and methods proposed to be used.

3. Provide a comprehensive description of the proposed project area and/or site. Include at least the following:

(a) The depth of water at the project area or site, and

(b) A description of known submerged archaeological historic properties (eg. shipwrecks, wharves, aboriginal sites, midden or refuse sites, scattered artifacts *etc.*) and paleontological properties (eg. fossil beds and scattered fossils).

4. List all proposed equipment to be used, or that will be available for use, in the work for which this application is made (use separate sheet if necessary). Include all vessels and vessel registry numbers.

5. List all proposed equipment and facilities available to the applicant to be used in the stabilization, storage and preservation of materials recovered to prevent their deterioration.

C. 1. Indicate the extent of total investment anticipated to complete the data recovery for which this application is made (use additional sheet if necessary). Attach a copy of the applicant's most current financial statement and provide an explanation of the applicant's proposed resources financially to support the work.

2. Detail how and in what form the applicant will furnish the Institute with a form of assurance adequate to guarantee completion of the data recovery if the license is interrupted or abandoned by the licensee. This assurance may be in the form of escrowed funds, a letter of credit, a performance bond, or other type of assurance acceptable to the Institute. The amount normally will be a sum equal to at least one-third of the amount budgeted and approved by the Institute for the intensive survey.

3. Are any stocks or shares to be offered for sale in this proposed endeavor? If so, how and to what extent? (use separate sheet if necessary).

D. 1. If a data recovery license is issued as a result of this application on what date will the work begin?

2. What is the anticipated weekly average, in hours, for the data recovery?

3. For how long a period is this license requested?

4. I am applying for a Data Recovery License as:

(a) A South Carolina resident, application fee of five hundred (\$500.00) enclosed _____, or

(b) A nonresident, application fee of one thousand dollars (\$1000.00) enclosed _____.

If this application is rejected the application fee will be returned to the applicant. Make all checks payable to the University of South Carolina.

I have read and do fully understand the South Carolina Underwater Antiquities Act of 1991 as it pertains to data recovery of submerged archaeological historic property and submerged paleontological property. Furthermore, I and all other persons to be involved in the license applied for, individually, agree to abide by the provisions of that law.
